# **Council working to restore services to the Ampilatwatja community**

**Barkly Regional Council is currently managing a reduction in its capacity to provide services to the Ampilatwatja community, following the ongoing and recent rains within the region and the closure of roads.**

Council is working with relevant agencies to minimise any effects residents may be experiencing and is working hard to resume services as quickly as practicable.

Director of Operations, Troy Koch has committed to mobilise additional resources to the Ampilatwatja community when road access is reestablished.

The additional resources will work with the Barkly Regional Council - Ampilatwatja team, and community to ensure services are operating effectively and any backlog of works are actioned.
